

2025-26 COMPANY PROFILE

**Empowering Electrical Solution
with Expertise & Quality**

Welcome to the new
era of Modern living.

INTRODUCTION

About Us

Founded in 2022, Golstar Industries Pvt. Ltd. is a trusted name in LED lighting and electrical solutions, committed to delivering high-performance, energy-efficient and long-lasting products for homes, offices and commercial spaces. With a focus on innovation and precision engineering, our range includes LED panels, battens, bulbs, street lights, floodlights, switches, accessories and more –crafted to offer consistent brightness, safety and durability.

Our products are designed to meet modern standards of style and performance while ensuring maximum energy savings and user convenience. Backed by advanced manufacturing processes and strict quality checks, we promise reliable illumination, strong build quality and customer-focused service.

From residential comfort to industrial excellence, we aim to brighten every space with solutions that are smart, sustainable and built to last.

Focused Support**

WHO WE ARE

Our Mission

We aim to provide high-performance, energy-efficient and reliable lighting & electrical solutions that enhance everyday living.

Our Vision

To become India's most trusted and future-ready lighting & electrical brand, known for quality, innovation and customer-centric solutions.

Why Choose Us

- Experienced & Reliable : Years of expertise with trusted quality.
- Strong Manufacturing & R&D : Advanced infrastructure and continuous innovation.
- PAN India Network : Fast delivery with wide distribution.
- Consistent & Excellent : Strict standards for every order.
- Customer-First Approach : Fair, transparent and relationship-focused.

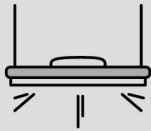

R&D & DESIGN EXCELLENCE

Higher light output

Better heat dissipation

Modern Design

Advanced electrical protection

Eco-friendly

Lower energy consumption

Longer product life

Certified materials

MANUFACTURING CAPABILITIES

In-House Expertise

- PCB assembly & testing
- LED driver manufacturing
- Die-cast aluminum & polycarbonate housing
- Optical lens, reflector, and thermal design
- High-grade copper & aluminium wiring components
- Switching product assembly with ISO-standard processes

Quality Infrastructure

- Surge & Hi-Pot testing
- Lumen efficiency testing
- Burn-in testing
- Thermal stability measurement
- Life-cycle & reliability testing
- BIS/ISO compliance (where applicable)

We ensure every product passes strict quality checks before dispatch.

Strong Manufacturing Capabilities

Continuous Technology Upgrade

Growing Nationwide Distribution Network

Our Company

Leading with innovation, delivering with commitment.

DIRECTOR Message

Since our start in 2022, our focus has been clear – to deliver reliable, energy-efficient lighting and electrical products that customers can trust. With strong manufacturing, continuous innovation and a growing PAN-India network, we are committed to building a brand known for quality, ethics and long-term value. Thank you for your support and belief in our journey.
